

Hritik Mune

Nagpur, Maharashtra — hritikmune@gmail.com — +91 7841076045

Professional Summary

B.Tech 2025 graduate with strong foundations in Java, SQL, Data Structures and Algorithms, OOP, DBMS, Operating Systems, and Computer Networks. Hands-on experience in backend development, REST APIs, Git workflows, and database management through academic projects and internship experience.

Education

Yeshwantrao Chavan College of Engineering (YCCE) Bachelor of Technology in Electronics and Telecommunication Engineering	2021 – 2025 CGPA: 7.75
Government Technical College 12th Maharashtra State Board	2019 – 2021 92.50%
Saraswati Vidyalaya 10th Maharashtra State Board	2019 81.20%

Technical Skills

- **Programming Languages:** Java, JavaScript, Python (Basics), C++ (Basics)
- **Computer Science Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
- **Web Technologies:** HTML, CSS, React.js, Node.js, REST APIs, Web Services
- **Database & Backend:** SQL, MySQL, JDBC, Relational Database Concepts, CRUD Operations
- **Software Development:** SDLC, Agile/Scrum Methodology, API Integration, Debugging, Software Testing, Version Control
- **Tools & Platforms:** Git, GitHub, Linux (Basics), Shell Scripting (Basics), AWS EC2, AWS RDS, CI/CD Basics
- **Core Strengths:** Problem Solving, Logical Reasoning, Communication, Continuous Learning

Internship

Web Development Intern | Fosters Digital Services Jan 2025 – Jun 2025

- Developed responsive web application features using React.js, HTML, CSS, and Node.js in an Agile environment.
- Integrated REST APIs and SQL databases to support backend functionality and data management.
- Utilized Git and GitHub for version control, collaboration, debugging, and issue resolution.
- Gained exposure to AWS cloud deployment concepts and CI/CD workflows.

Projects

Employee Payroll & Attendance System — Java, JDBC, MySQL

- Developed a payroll and attendance management system using Java and MySQL with modular OOP architecture.
- Implemented SQL-based employee record handling, attendance tracking, salary calculations, and data validation mechanisms.
- Integrated JDBC for backend database communication and optimized relational database operations for improved performance.

Banking Management System — Java, SQL

- Built a banking application supporting account creation, deposits, withdrawals, and transaction management.
- Applied JDBC and SQL concepts to maintain secure, reliable, and consistent transactional data operations.
- Strengthened understanding of backend development, debugging, data integrity, and software lifecycle management.

Student Management System — Java, SQL

- Created a student records management system for handling academic and personal information.
- Performed CRUD database operations and implemented structured relational data models using SQL.
- Focused on backend integration, efficient data handling, problem-solving, and application reliability.

Achievements & Certifications

- **Java Full Stack Training – 360 Digrii:** Covered Core Java, SQL, HTML, CSS, JavaScript, and software development fundamentals.
- **Cambridge C1 English Certification:** Advanced proficiency in verbal and written English communication.
- **Eagles Club Training Program:** Selected for aptitude, communication, AWS, Java, and front-end technology training.
